

CivicFlow Platform

Official User Guide & Operational Manual

1. Executive Overview

CivicFlow is a state-of-the-art civic accountability platform turning public infrastructure reports into trackable, measurable, and verified community action. Featuring AI-assisted classification, interactive Leaflet GIS mapping, dynamic SLA deadline countdowns, automatic supervisor escalations, and mandatory citizen resolution verification.

2. Access Roles & Demo Credentials

Role Type	Demo Email	Password	Responsibilities
Citizen Reporter	citizen@civicflow.org	password	Report issues, upvote items, verify fixes.
Department Officer	authority@civicflow.org	password	Accept tickets, upload proof photos, resolve.
Platform Admin	admin@civicflow.org	password	Command Center KPIs, SLA escalations audit.

3. User Workflows & Instructions

3.1 How Citizens Report Issues

- Sign In:** Click *Sign In* → Choose *Citizen User* demo login.
- Upload Evidence:** Click *Report Issue*. Attach photo via File Upload, Image URL, or click Sample Evidence Photo presets (Pothole, Garbage, Streetlight, etc.).
- Pin Location:** Select exact location on interactive Leaflet GIS map.
- AI Analysis:** Enter description and run AI classification (auto-tags category, severity & SLA).
- Duplicate Check & Submit:** Upvote existing nearby issues or click Submit to generate tracking code (CF-YYYYMMDD-XXXX).

3.2 How Officers Resolve Issues

- Sign In:** Log in as *Officer User* (authority@civicflow.org).
- Accept Ticket:** Open Dashboard, select an Assigned issue, and click *Accept Assignment* (status → In Progress).
- Resolution Proof:** Select issue, click *Upload Resolution Proof*, pick After-Photo proof, type notes, and submit.

3.3 Citizen Verification & Escalations

Verification: Reporter inspects department's After-Photo. Approving closes ticket (+20 points). Rejecting reopens ticket.

SLA Escalations: Overdue complaints automatically escalate to Department Supervisor (Level 1) and Municipal Commissioner (Level 2).

4. SLA Target Deadlines

Severity	SLA Deadline	Level 1 Escalation	Level 2 Escalation
Critical	24 Hours	Supervisor (Immediate)	Higher Authority (>48h)
High	72 Hours	Supervisor (+1h post breach)	Higher Authority (+48h)
Medium	168 Hours (7 Days)	Supervisor (+1h post breach)	Higher Authority (+48h)
Low	336 Hours (14 Days)	Supervisor (+1h post breach)	Higher Authority (+48h)
